

EE / CprE / SE 491 – sdmay20-34

Open Source .NET Blog

Week 1 Report

1/13/20 – 1/30/20

Client: Cylosoft Inc.

Faculty Advisor: Mohamed Y. Selim

### Team Members:

Peter DeBisschop — Project Manager/Database Developer

Sebastian Kazun — Backend Developer

Cole Mulligan — Backend Developer

Thien Nguyen — Frontend Developer

## Past Week Accomplishments

- Added setup files - PJ
  - README with information about how to setup and run the project locally
  - SQL script to setup your database
- Controllers/Views - PJ
  - Ability to view ALL current users in the database and their role
  - View created to create a new user (may not really be needed however)
  - View for details of a user
  - View for deleting a user
  - ManageUsers Controller created
    - Still working to implement it with my new ViewModel
  - Created a new ViewModel for user with ManagerUsers
  - Converted Posts Controller to use partial views
- Cole
  - New fixed navigation sidebar
  - Began work on a template for the admin area to have the same design throughout
- Sebastian
  - Improved UI of Login/Register and related views
  - Started creation of SiteSettingsController - admin will be able to change site language, posts per page, and title for example
  - Added ability to login via 3rd party such as twitter, facebook, google, and microsoft
- Thien
  - Added post redirecting and view pages
  - Shrink posts to continue on new page
  - Started on visuals of home and post pages

## Pending Issues

# Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Peter DeBisschop	See above	12	12
Sebastian Kazun	See above	10	10
Cole Mulligan	See above	8	8
Thien Nguyen	see above	10	10

## Plans for Coming Week

- Cole
  - Finish general template
  - Add bootstrap to all inputs
  - Investigate rendering views without using the controller but keeping functionality
- PJ
  - Finish of ManageUsers Controller to use correct models
  - Look into Partial Views more. How to render them. How to use them with a controller, etc..
- Sebastian
  - Finish SiteSettingsController and create needed views
  - Improve UI of account management page
- Thien
  - Finish base design of the home page
  - Start on account views and profiles
  - Improve UI of the home page
